
exocad GmbH

End User License Agreement for exocad Medical Device Software

1. DEFINITIONS

1.1 For the purpose of this End User License Agreement, the following terms shall have the meaning as ascribed to them in this Section:

a **“Bug Fixes”** intend to address bugs and/or known limitations of the Contract Software without altering or extending its attributes and/or scope of functioning.

b **“Contract Software”** shall mean the medical device software developed by exocad consisting of the Core Version and/or the Modules and/or potential future medical device software components developed by exocad and leased by the Distributor to the End User under the Lease Agreement.

c **“Core Version”** shall mean the software component that is the prerequisite for running the medical device software licensed under this EULA and providing its core functionality. Modules are not included and can be optionally licensed separately.

d **“Distributor”** shall mean the entity leasing the Contract Software to the End User under the Lease Agreement.

e **“End User”** shall mean the direct, commercial user of the Contract Software that is leased to him by the Distributor under the Lease Agreement.

f **“EULA”** shall mean this End User License Agreement, which is part of the Lease Agreement. The relationship between this EULA and the Lease Agreement is governed by Section 2 of this EULA. This EULA is only directed towards commercial users of the Contract Software and does not grant any rights to consumer End Users.

g **“exocad”** shall mean exocad GmbH, a limited liability company under the laws of Germany who has licensed the Contract Software to the Distributor.

h **“Head License Agreement”** shall mean the license agreement in place between the Distributor and exocad entitling the Distributor to distribute the Contract Software in connection with this EULA.

i **“Initial Activation”** shall mean the activation of the Contract Software for an individual software License, which is protected by a USB Dongle. The Contract Software generally needs to be activated by the Distributor or the End User before initial usage. This activation is conducted via the License Server.

j **“Intended Purpose”** shall mean the purpose the Contract Software is dedicated to be used for as specified by exocad in the respective accompanying documentation, such as the user manual and the Performance Specifications.

k **“License”** shall mean the End User’s right to use the Contract Software as specified in this EULA.

l **“License Server”** shall mean exocad’s server which is used to administrate the Licenses for the Contract Software and to conduct the Initial Activation.

m **“License Term”** is defined in Section 11.1.

n **“Lease Agreement”** shall mean the lease agreement entered into between the Distributor and the End User, including this EULA and the terms individually agreed between the Distributor and the End User. The relationship between this EULA and the Lease Agreement is governed by Section 2 of this EULA.

- o** **“Modules”** shall mean major extensions to the Core Version which need to be ordered separately for each individual software License and are usually made available to the End User against additional remuneration.
- p** **“Party”** is either the Distributor or the End User, **“Parties”** are both the Distributor and the End User.
- q** **“Performance Specifications”** shall mean a document that includes a technical description of the Contract Software. Changes to the Contract Software may result in an update of the Performance Specifications. The relevant version of the Performance Specifications is the one valid at the time of Distributor’s offer, End User’s order or each update of the Contract Software (e.g. Bug Fixes, Updates or newly developed Modules) during the License Term (whichever is later). Additionally, an update of the Performance Specifications may be required with immediate effect if this is necessary for reasons of patient safety or to remedy an alleged infringement of third party rights in accordance with Section 7.2. The Performance Specifications will be made available by the Distributor to the End User and Distributor will inform the End User of new updates to the Performance Specifications without undue delay.
- r** **“Updates”** shall mean new versions of or patches to the Contract Software provided by the Distributor in the sense of minor extensions to the Contract Software and/or replacements of the manner of functioning of the Contract Software by a newer functionality which has improved characteristics but which does essentially retain the original functional scope and/or implements it in a different way.

- s** **“USB Dongle”** shall mean a USB hardware device for the purpose of license management and copyright protection which is required for each use of the Contract Software including the Initial Activation. The USB Dongle must at all times be connected to the respective computer in order to run or use the Contract Software.

2. CONTRACT DOCUMENTS

- 2.1** This EULA is a license agreement between the Distributor and the End User and forms an integral part of the Lease Agreement.
- 2.2** In case of inconsistencies or contradictions between this EULA and the Lease Agreement, the provisions of this EULA shall take precedence.

3. LICENSE TERMS

- 3.1** Under the Head License Agreement, the Distributor has obtained from exocad the right to grant sublicenses to End Users for the use of the Contract Software in accordance with the terms of this EULA. Nothing in this EULA shall affect exocad’s right in and to the Contract Software, and the End User is granted only the rights explicitly awarded by this EULA.
- 3.2** Upon Initial Activation, the Distributor grants to the End User, subject to this EULA, a non-exclusive, non-transferable, non-assignable, non-sublicenseable, non-permanent, limited license to install, store, load, execute, configure and display the Contract Software on its computers which are connected to a USB Dongle solely for internal business operations, i.e. the provision of its medical services to its patients. This License is granted as „per seat“ license, not as concurrent user license or floating license, i.e. each License is limited to one End User and one computer at a time.

3.3 In particular, the use of the Contract Software in connection with the operation of a computer center for third parties (e.g. with remote access per team-viewer) as well as publishing, copying (except where required under Section 3.2), leasing, lending, or any other form of (temporary) making available of the Contract Software to third parties (e.g. as application service providing or as desktop-as-a-service) are not permitted. The commercial distribution or making available of the Contract Software by the End User is strictly prohibited. The End User is not entitled to transfer or grant rights granted under this EULA to third parties and/or to legally or commercially affiliated companies (cf. Sec. 15 of the German Stock Corporations Act (Aktiengesetz)).

3.4 Except as expressly permitted hereunder, the End User is not entitled to make any modifications or enhancements to the Contract Software, or create any derivative work based on the Contract Software or configure the Contract Software to create new applications or new material functionality not provided by the Contract Software or contemplated by the relevant Performance Specifications. Sec. 69d of the German Copyright Act (Urheberrechtsgesetz) remains unaffected.

3.5 Except as permitted by Sec. 69e of the German Copyright Act (Urheberrechtsgesetz), the End User is not entitled to decompile, disassemble, reverse engineer or otherwise attempt to reconstruct or discover the source code or underlying programming sequences, methodologies and techniques of the Contract Software.

4. ACTIVATION AND PROVISION OF CONTRACT SOFTWARE

4.1 The Distributor shall provide the End User with and install and configure the Contract Software on the computers of the End User. The Contract Software shall be supplied in executable form

in object code. The End User is not entitled to receive any source code form of the Contract Software or any rights thereto.

4.2 The USB Dongle is used for the individual software license management and must be attached to the computer to start and run the Contract Software. The Distributor will provide the End User with the USB Dongle.

4.3 Before using the Contract Software with its USB Dongle on a specific computer, Initial Activation is required. The Initial Activation will only enable use of the Contract Software on the specific computer the USB Dongle is connected to during the activation process. The License is activated by using an online internet connection from the Contract Software on the computer with the USB Dongle to exocad's License Server. Should during the activation process no successful connection to exocad's License Server be established for technical reasons, the Distributor may optionally perform the Initial Activation, e.g. by manual activation at the End User's computer using activation codes provided by exocad or its License Server.

4.4 In order to prevent the unauthorized multiple use of the Contract Software with a single USB Dongle, the Distributor reserves the right to refuse the Initial Activation of the Contract Software on more than five (5) computers in whole until the question of the further authorization for use by the End User has been clarified. In addition, the Distributor retains the right to agree to a change of a License to another computer than the Contract Software was originally activated for only in exceptional cases if comprehensible reasons for such change are provided to the Distributor and compliance with this EULA is ensured to the Distributor's satisfaction.

- 4.5** During the License Term, defective USB Dongles will be replaced. In order to transmit the configuration of the defective USB Dongle to the new USB Dongle, the End User has to provide the Distributor with the serial number of the defective USB Dongle in writing (email is sufficient). The defective USB Dongle must be returned to the Distributor. The new USB Dongle will not be sent before the defective USB Dongle has been received by the Distributor.
- 4.6** Lost USB Dongles will be replaced by the Distributor. The lost USB Dongle will be deactivated after the loss has been notified to the Distributor.
- 4.7** Even after the Initial Activation, the Contract Software can only be used on a computer when the USB Dongle that has been used for the Initial Activation on that specific computer is connected to this computer. Changing the hardware, the operating system, or user accounts in the operation system of the computer may re-trigger the Initial Activation process for copyright protection reasons.
- 4.8** The Contract Software will require a technical License validation every two (2) weeks, to ensure that the End User's License for a specific computer is still valid. The technical requirements for this validation are the same as for the Initial Activation. It is highly recommended to have a valid internet connection while using the Contract Software. In case that the Contract Software was not used for a period of two (2) weeks or longer on a computer with a USB Dongle, a confirmatory Initial Activation process may be triggered automatically for the computer and its USB Dongle.

5. INFRINGEMENT OF LICENSE TERMS

Should the Distributor become aware of any infringement of this EULA, it may in its reasonable discretion deactivate the Contract Software (i.e. the USB Dongle cannot be used for running the Contract Software) activated for the infringing End User and used for the infringement.

6. BUG FIXES / UPDATES / MODULES

- 6.1** Unless otherwise agreed, Bug Fixes published by exocad during the License Term shall be provided to the End User by the Distributor free of charge.
- 6.2** Unless otherwise agreed, Updates published by exocad during the License Term shall be provided to the End User by the Distributor free of charge.
- 6.3** Modules offered by the Distributor during the License Term are subject to a separate order by the End User and their use by the End User will be subject to this EULA. The License Term for such Modules will be individually defined in each case to match the remaining License Term for the Core Version (congruent term principle).
- 6.4** If exocad publishes Bug Fixes or Updates which remedy critical defects or malfunctions of the Contract Software or are otherwise required for using the Contract Software securely, the Distributor will inform the End User accordingly. Upon such information, the End User will immediately stop using the Contract Software without the required Bug Fixes or Updates being installed on the relevant computers of the End User by the Distributor. The continued use without Bug Fix or Update is the End User's sole risk and responsibility.

- 6.5** Bug-Fixes, Updates and new Modules may require an update of the Performance Specifications to the extent necessary to reflect the changes to the Contract Software and its use as implemented by the respective Bug-Fix, Update or new Module.

7. DISPUTES

- 7.1** In the event that any third party asserts a claim against the End User with regards to the Contract Software, the End User will (i) immediately inform the Distributor, (ii) not take any steps towards such third party without prior written approval from the Distributor and (iii) provide reasonable assistance to the Distributor for the solution of such dispute.
- 7.2** In case of such alleged claim the Distributor may in particular, at its option and expense (and in coordination with exocad), have the right but not the obligation to either (i) procure for the End User the right to continue using the allegedly infringing materials; (ii) replace or modify the same so that they become non-infringing; (iii) reduce the scope of functionality of the Contract Software so that it becomes non-infringing; or (iv) terminate the End User's right to use the Contract Software.
- 7.3** If, during the License Term, the End User's usage rights to the Contract Software are amended, restricted or annulled due to third party claims in accordance with Section 7.2, this shall not affect the validity and effect of the License and the license fees due until this time (unless the License is terminated in accordance with the provisions of this EULA). The Distributor, however, undertakes to adjust the future license fees in its reasonable discretion (Section 315 of the German Civil Code (Bürgerliches Gesetzbuch)).

8. REGULATORY REQUIREMENTS

- 8.1** The Distributor will provide the End User with all relevant data, information and training required for the operation and use of the Contract Software.
- 8.2** The End User will reasonably support the Distributor and exocad to comply with their obligations as medical device manufacturer and distributor under the legal framework applicable in the respective region (e.g. based on Medical Device Directive 93/42/EEC, US Code of Federal Regulations Title 21 (FDA)), e.g. by providing required documents or information, in particular with regards to any product recall, corrective and preventive actions, in any investigation of customer complaints, or in the event of a (potential) medical device-related incident investigation.
- 8.3** The End User is obliged and shall ensure that its employees and any other persons handling the Contract Software obey:
- a** To comply with the applicable provisions on the launch, operation and use of the Contract Software as medical device;
 - b** Not to use the Contract Software outside the Intended Purpose and the Performance Specifications;
 - c** To strictly follow all installation and servicing (including necessary Updates and/ or Modules) instructions provided by the Distributor or exocad and return required records and reports of the performed activities to the Distributor;
 - d** To engage only the Distributor to conduct the servicing, maintenance and inspections of the Contract Software;
 - e** To participate in trainings on the usage of the Contract Software;

- f** To notify the Distributor without undue delay about any material malfunctions or errors of the Contract Software;
- g** Where applicable, only use such parts of an Implant-, Sleeve- or Kit-Library that are approved in the country of usage from a regulatory perspective.

stated in this EULA, each such inspection and audit will be conducted during reasonable business hours, for a reasonable duration, and at the Distributor's expense, no more than once per year. The Distributor will give the End User reasonable prior notice of such audit.

9. AUDIT AND COOPERATION

- 9.1** The End User understands and accepts that the Distributor and exocad have a fundamental interest in detecting and preventing product piracy and other forms of unlawful use of the Contract Software in the license chain in order to ensure product and patient safety. For this purpose, the End User shall reasonably assist and cooperate with the Distributor to investigate where the Distributor suspects that product piracy or other unlawful use of the Contract Software may exist. For this purpose, the End User shall in particular upon request provide relevant information on its use of the Contract Software. If Distributor suspects that product piracy or other unlawful use of the Contract Software may exist, then End User shall allow Distributor to use a trustworthy third party who is sworn to secrecy by contract or professional obligations and to be agreed on between the Parties („Auditor“) to conduct onsite and/or offsite inspections and audits of the End User's business and practice that relate to the End User's use of the Contract Software. The Auditor will not inform Distributor about all records, books and practices that Auditor has inspected during the audit, but only about documents supporting specific contractual breaches and compliance concerns under this Agreement, including related evidence, that Auditor has identified as a result of such audit. The Distributor shall be entitled to such audit during the License Term and for as long as the End User retains confidential information, copies of the Contract Software or other material of the Distributor. Unless otherwise

10. USAGE DATA

By activating or using the software, the End User acknowledges that anonymous user statistics and USB Dongle serial-specific online access information (e.g. IP addresses, PC hardware identification, driver/software versions and signatures) might be collected in the software for improving the software experience, for software license protection purposes, for software updates and for software recall checks. Furthermore, exocad may collect additional information necessary to comply with legal obligations in the context of being a medical device manufacturer. In order to support the anonymity of the patient, the End User shall work in a correctly configured environment of the Contract Software (e.g. non-identifiable naming of patient design cases/files).

11. LICENSE TERM AND TERMINATION

- 11.1** The License Term is one (1) year from Initial Activation and shall automatically be extended for subsequent one (1) year periods unless (i) the License is terminated in accordance with the Lease Agreement or (ii) the License is terminated or expires in accordance with the provisions of this EULA.
- 11.2** The License of the End User will automatically and immediately expire without further notice if (i) mandatory usage of the USB Dongle is circumvented, (ii) existing USB Dongle protection is impaired, circumvented or tampered with (e.g. by making copies of the USB Dongle, or its contained license data), (iii) the Contract Software is used on any other computer than the computer the Contract Software has been successfully activated for,

(iv) the connection between the computer where the Contract Software is running and the License Server is blocked, circumvented, impaired or tampered with or (v) any attempt, preparation or support measure for any of the above actions is undertaken. Any potential claims of exocad or the Distributor regarding compensations for fictitious license fees or any further claims, including damage claims exceeding fictitious license fees, shall remain unaffected.

- 11.3** The right to terminate the License outside Section 11.1 for any other reason than good cause shall be excluded. Good cause shall in particular apply for one Party if
- a** the respective other Party materially breaches its obligations under this EULA and does not rectify the respective breach within a reasonable period of time after being informed about the breach by the other Party in writing. No rectification period is required if (a) rectification is impossible, (b) the Party in breach seriously and definitively refuses to perform as required or (c) other special circumstances have arisen which, once the interests of both sides have been weighed up, justify an immediate termination. This shall not apply to the End User's obligation to pay the license fees. For this case, the statutory provisions of the German Civil Code (Bürgerliches Gesetzbuch) apply.
 - b** the respective other Party has suffered a material adverse change in its financial situation which endangers the viability of the Lease Agreement.

Termination for good cause requires written form; sending the written termination declaration by fax is sufficient.

- 11.4** The End User will, in no event later than fifteen (15) days from the end of the License Term, either return to the Distributor or delete from any computer

system and destroy, as directed by the Distributor, all copies of the Contract Software in its possession and provide a certificate from an officer of the End User to that effect. Likewise, the End User will return, in no event later than fifteen (15) days from the end of the License Term, all USB Dongles provided by the Distributor to the End User.

12. THIRD PARTY BENEFICIARY CLAUSE

- 12.1** The rights of the Distributor under this EULA shall also apply in favor of exocad as third party beneficiary (echter Vertrag zugunsten Dritter). This means that all rights attributed to the Distributor under this Agreement may also be executed by exocad.

13. FINAL PROVISIONS

- 13.1** The EULA is exhaustive in its regulation of the End User's use of the Contract Software. All prior understandings or agreements in this regard are superseded by this EULA. No supplements to this EULA have been entered into verbally. All amendments to, additions to and cancellations of contractual provisions must be made in writing, just as this requirement itself can only be rescinded in writing.
- 13.2** Should any provision of this Agreement be or become wholly or partially invalid, the validity of the remaining provisions shall not be affected. The Parties shall in this case endeavor to replace the invalid provision by a legally effective provision which corresponds as far as possible to the original intention in legal and commercial terms. If the Parties have not reached an agreement on the replacement within three months after the invalidity became apparent, both Parties are entitled to terminate the Agreement with a wind-up period of three further months. The same shall apply if a gap exists or arises and if other circumstances

occur which are fundamental at least in the opinion of one Party for the continued existence of the Agreement which were previously not expressly addressed in this contract. This EULA is governed by and construed under the laws of the Federal Republic of Germany under exclusion of its provisions on the conflict of laws and the CISG.
